Tokyu Land Corporation

**Name of “(Provisional Name) Ginza 5 Project” Finalized
to “TOKYU PLAZA GINZA”;
125 stores to be tenants in the new landmark of Sukiwabashi, Ginza
—To Open March 31, 2016—**

Tokyu Land Corporation (head office: Minato-ku, Tokyo, President: Hitoshi Uemura) is pleased to announce the facility name, tenants, and opening date of the “(Provisional Name) Ginza 5 Project” currently under construction at the Sukiwabashi Crossing of Ginza.

<Exterior Image (Noon)>

<Exterior Image (Night)>

One of the largest commercial facilities in the Ginza area has been officially named “TOKYU PLAZA GINZA” and will open its doors at the Sukiwabashi Crossing on Thursday, March 31, 2016.

Arriving in the town of Ginza, which leads the commerce and culture of Japan, the facility was developed under the concept of “Creative Japan: The world becomes exciting from here.” With the exterior design using the traditional craft of Edo Kiriko as a motif and tenants that combine distinguished tradition with the newest trends, this will become a new landmark that upholds the charm of the Ginza area, where tradition and innovation go hand in hand.

Public spaces will be established for visitors on the 6th floor and rooftop to create a new urban space (=plaza) in the town of Ginza. All 13 floors (retail space) will comprise quality and diverse fashion, lifestyle goods, and restaurants, as well as the largest in-city airport-style duty-free shop in Tokyo. The commercial facility will offer an innovative array of shops for visitors from both Japan and abroad.

TOKYU PLAZA GINZA will aim to become a new-generation lifestyle destination and world-class commercial facility.

Concept and Target

The development concept is “Creative Japan: The world becomes exciting from here.” The aspiration is to further polish the “essence of Ginza,” which is considered to be elegance passed down for generations combined with the frontier spirit of incorporating the latest trends on its own terms, thus arriving at the concept of “Creative Japan.” The key words are “tradition and innovation.”

The exterior of the facility was designed under the concept of a “vessel of light” using the traditional craft Edo Kiriko as a motif. It’s said that Edo Kiriko was born by fusing the glass techniques of Edo and cutting techniques of the West and could be considered in itself a symbol of tradition-innovation fusion. The light that spills from the building exterior expresses a “vessel of light” that creates and disseminates new information while taking in a variety of cultures.

TOKYU PLAZA GINZA targets “GINZA Connoisseurs”. This refers to “grown-ups” who have a discerning eye for their own lifestyle and substance regardless of age, and the capacity to enjoy everyday life.

<Exterior Image (Nishi Ginza Street Side)>

Facility Plan

The facility comprises five floors underground and eleven floors above. The main entrance is on the Sukiyabashi Crossing side, which has heavy pedestrian traffic. An escalator here offers direct access to the 3rd floor and will guide visitors to the higher floors. Another entrance on the Miyuki Avenue side will improve convenience and foot traffic flow. The B2 floor will connect directly to the bustling Tokyo Metro Ginza station walkway so visitors can come to the facility regardless of weather. Further, a parking lot for about 170 vehicles will be available on the basement floors. This will also connect to Nishi-Ginza Parking, which has capacity for approximately 800 vehicles, making the facility easily accessible by car.

<Sukiyabashi Crossing Direct Escalator to 3F>

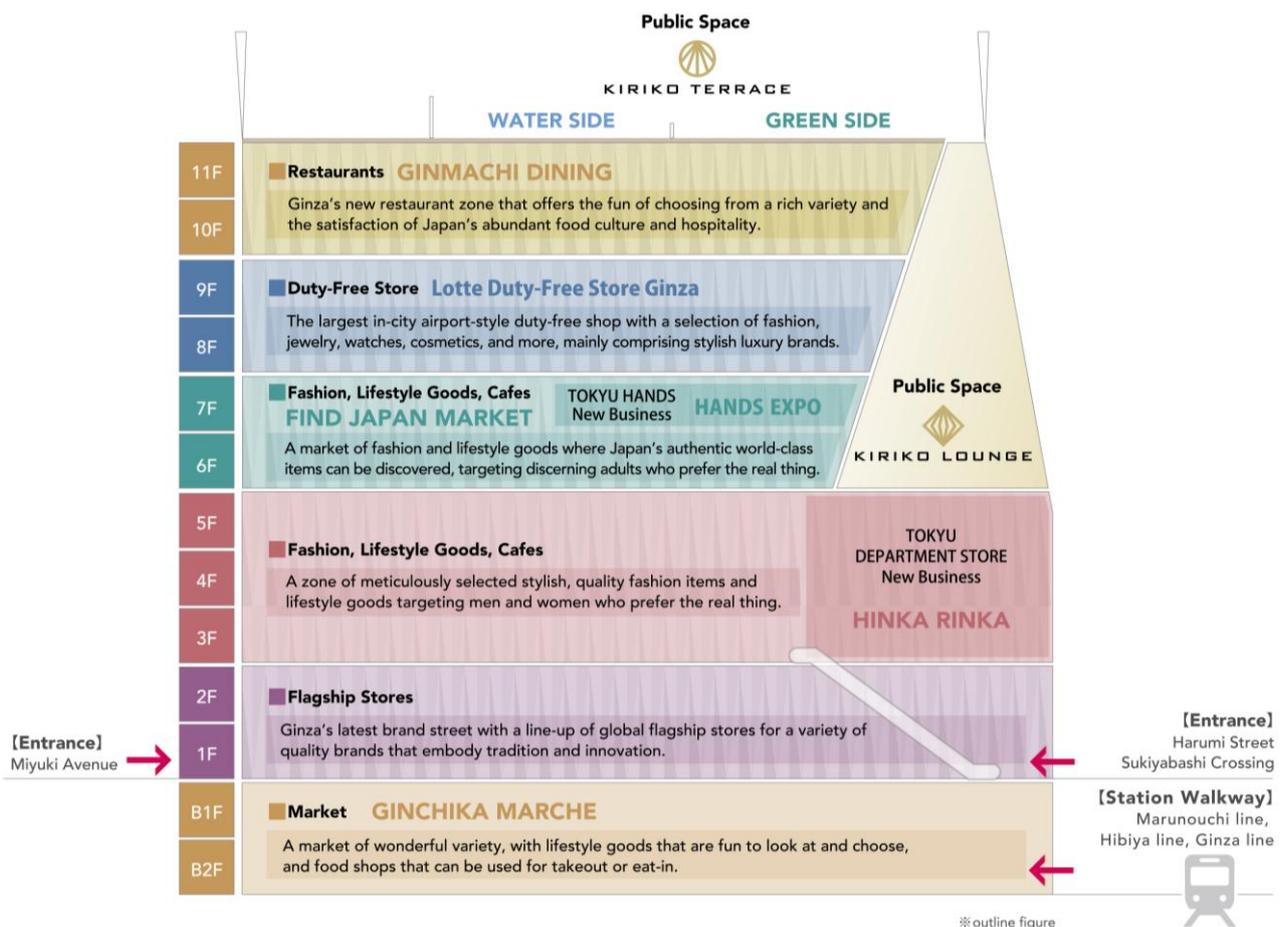

<B2F Direct Entrance From Underground Walkway>

Floor Plan

Based on the concept of “Creative Japan: The world becomes exciting from here,” the facility will offer 125 shops for visitors to experience/sense tradition and innovation.

Street-level tenants will be on the 1st and 2nd floors, while food shopping and restaurants will be on the B2, 10th, and 11th floors. The B1 and 3rd through 9th floors will sell merchandise. Public spaces that serve as icons of the facility will be on the 6th floor and rooftop and made available for taking a break during shopping or using as a meeting point.

TOKYU PLAZA GINZA has a richly varied line-up of shops that balance distinguished tradition and the newest trends, serving as a place to find “the real thing” regardless of borders and time. Space to deliver information and culture will also be established so that visitors can experience the concept of “Creative Japan: The world becomes exciting from here.” Various content will be disseminated from Ginza in collaboration with entities such as Bunkamura (Tokyu Bunkamura, Inc.).

Tenant Outline

In addition to an array of high-class brands typical of Ginza, tenants comprise shops that balance distinguished tradition and the newest trends. With a total 13 floors (commercial space) that is possible only because this is a large-scale development rare in the area, the facility will host fashion/lifestyle good shops, restaurants, cafes, a new TOKYU DEPARTMENT select store and a new store from TOKYU HANDS. Further, the largest in-city airport-style duty-free shop will open, making this a next-generation line-up that will satisfy the urban shopping lifestyles of visitors from both Japan and abroad.

[B2F–B1F] GINCHIKA MARCHÉ

The B2 and B1 floors are a market of wonderful variety with approximately 30 tenants, offering lifestyle goods that are fun to look at and choose, and food shops that can be used for takeout or eat-in.

B2F

The B2 floor connects directly to the underground walkway of Ginza station and features food and eat-in shops including the venerable “THE CITY BAKERY”, which is tremendously popular in New York. CAVIAR HOUSE & PRUNIER, which operates premier seafood bars and luxury retail boutiques in the world’s major airports and high-end shopping districts, will open “CAVIAR HOUSE & PRUNIER SANDWICH HOUSE”, a popular luxury sandwich shop, in Japan for the first time. “HANDELS VÄGEN”, popular in Kyoto for its fresh ice cream, will open its first store in Tokyo. “SALON adam et rope” operated by JUN CO.,LTD. will open a store alongside its new Japanese-cuisine bistro “SALON GINZA SABOU”. This will offer modern Japanese food and lifestyle goods with the concept of Farm-to-Table.

B1F

The B1 floor will house “BIRTHDAY BAR TOKYO”—a new format of the popular gift shop BIRTHDAY BAR, the handkerchief specialty shop “swimmie”, and the sophisticated “TOUCH & FLOW” stationery shop that offers quality lifestyle discoveries and will open for the first time in Tokyo. “「+S」 Spiral Market GINZA” presents Japanese artisanal manufacturing through creator works and “WELEDA” is the pioneering brand of organic cosmetics. This new Ginza zone will feature a rich variety of lifestyle goods. “Tully’s Coffee Prime Five” will be Tully’s Coffee’s first bar-style shop and the largest in Tokyo with approximately 100 seats. This large-scale café in Ginza will be convenient and inviting, with premium coffees, wines, and desserts on the menu.

[1F–2F] Flagship Stores

A new street of brands will be born in Ginza, with a diverse collection of high-end brand global flagship stores that propose innovative style while honoring tradition.

The street-level space of approximately 110 meters facing Nishi Ginza Dori Street (Sotobori Dori Street) will comprise about ten stores, including global flagship stores of time-honored luxury brands, select shops that offer world-class items with a discerning eye, an event square, and a café. On the Sukiyabashi Crossing side, “BALLY” with a façade designed by a world-renowned international architect

and the Italian luxury brand “Kiton” will adorn the new corner, while “CRUCIANI” and “EDWARD GREEN” add color. The adjacent line-up of “EMPORIO ARMANI”, “HACKETT LONDON”, “STRASBURGO”, “HUNTER”, and “GLOBE-TROTTER” double-level shops each feature distinctive façades and unique store designs to fully render the worldview of their brands and will offer top-class hospitality such as bespoke services. At the corner of Miyuki Dori Avenue, Mitsubishi Electric will open an event space called “METoA Ginza”, where hands-on events will be held regularly. Including a café on the first floor, the facility will help foster a sense of excitement and provide visitors a place to relax. On the Sukiwabashi Park side, “PÄRLA”, which is popular for its authentic crepes for adults, will open, creating new bustle in the park area. *METoA Ginza will be a three-storey level tenant.

[3F–5F] Fashion, Fashion and Lifestyle Goods, Cafes

Targeting adults who prefer the real thing, approximately 40 shops will open with a line-up of stylish, fine-quality fashion items.

3F The 3rd floor can be entered directly from Sukiwabashi Crossing and will offer fine-quality, sophisticated fashion. The British “SUNSPEL”, which proposes quality modern lifestyles, will open its first store in Japan. The scarf brand “marumasu” that fuses innovation with the tradition of a venerable dye factory founded in 1901 will also open its first shop. Kenji Takenaka, a flower designer based in New York, will also open his flower shop “SIKIRO NEWYORK” in Japan for the first time.

4F The 4th floor will feature women’s select shops that disseminate trends, such as the Italian ladies’ fashion shop “ottod’Ame” making its debut in Japan, “FIGARO Paris”, “essence of ANAYI”, and “CASA VIA BUS STOP”. Kazutoshi Narita, who worked at Pierre Hermé and Joel Robuchon and is currently chef/pâtissier of Restaurant ESQUISSE will open the new café “La nouvelle boutique ESQUISSE” on the same floor, for a line-up of fine-quality, sophisticated shops for women.

5F The 5th floor comprises fashion and lifestyle goods for adults. “MARcourt DESIGN EYE”, which will add men’s items to its ladies’ fashion collection, and the lifestyle brand “SLOW HOUSE”, which proposes food, clothing, and home items through its unique perspective and ideas, will open on this floor. Other tenants include “quadro/sot”, which features fine-quality fashion especially made in Japan, and “Nigel Cabourn WOMAN THE ARMY GYM”. Nigel Cabourn offers enduring values to those who continue to seek the real thing and this will be his first store that focuses on women’s items.

TOKYU DEPARTMENT STORE’s newly developed select store “HINKA RINKA” will span approximately 600 tsubo (nearly 20,000 m²) on the 3rd through 5th floors. Discerning buyers select the latest sophisticated items from Japan and abroad and propose fresh unparalleled adult fashion. The 3rd floor will feature a proprietary selection of lifestyle goods and “Timeless Tokyo”. The 4th floor will offer a rich line-up for visitors to discover their personal style, with more than 1,000 pairs of ladies’ shoes and the select apparel shop “The SECRETCLOSET”. The 5th floor will present the concept of “Standard from Tokyo” and the chocolate boutique & café “CACAO MARKET by MarieBelle” will open for the first time in the Kanto region.

[6F–7F] FIND JAPAN MARKET

Visitors will discover the genuine things of Japan that are world-class worthy. This fashion/lifestyle goods market is for discerning adults who prefer the real thing.

6F The 6th floor features the men’s Japanese fashion brand “IKIJI” from the Sumida district of Tokyo, which incorporates the Edo spirit into modern lifestyles, and the first brick-and-mortar “FUJIMAKI hyakkaten”, from the online shopping site that introduces exquisite items along with their stories under the theme of “Japan.” Other stores include: “hamamonyo kime”, which specializes in “playful, new Japanese-style” tenugui; “SIWA Collection”, the first shop from SIWA, which expands upon the possibilities of paper; and the embroidery shop “KYO-TO-TO”, opening for the first time in Tokyo. A total of 19 stores represent Japan’s artisan techniques, subtleties, ability to compile, and tradition + innovation.

7F The 7th floor will house “HANDS EXPO”, the new store from TOKYU HANDS, and “LightUp/Zekoo” from LightUp Shopping Club. HANDS EXPO’s concept is “linking cultures, generating culture” and will comprise the five zones of “wa(和)・miyako(都)・chi(知)・bi(美) and syoku(食)”. These cultural zones, with their multiple themes, blend into each other, and induce a chemical reaction of sorts to leave a lasting impact on all visitors. There is also a café on site to allow for the transmission of culture to set the stage for active participation, new tastes and new friends.

[8F–9F] Duty-Free Store

“Lotte Duty-Free Store Ginza”, the largest in-city airport-style duty-free shop, will open with a selection of fashion, jewelry, watches, cosmetics, and more, mainly comprising stylish luxury brands.

The 8th floor will comprise luxury brand boutiques from around the world and a watch shop. The 9th floor will carry cosmetics, jewelry, perfumes, and watches, for a line-up of duty-free items that is unique to this large-scale shop. Because it’s an in-city airport-style duty-free shop, inbound visitors as well as Japanese visitors who will travel abroad can leisurely shop for items that are exempt from customs duties, consumption tax, liquor tax, and cigarette tax.

<Image of Duty-Free Store Interior>

[10F-11F] GINMACHI DINING

Ginza's new restaurant & dining zone will offer the fun of choosing from 20 restaurants.

10F

With an open terrace inspired by the Ginza Brick Masonry Street at its center, the 10th floor concept is a new “watering hole for adults.” Offerings will include “Nemuro HANAMARU”'s rotating gourmet sushi with meticulously selected seasonal fish and “Bareburger”'s hugely popular organic and all natural gourmet burgers from New York. Thai beer maker SINGHA will open its beer restaurant “SINGDEE TERRACE” in Japan for the first time, as will “Guy & Jo's Hawaiian Style Café” from the Big Island. “TsuruTonTan UDON NOODLE Brasserie” is a new restaurant from TsuruTonTan that proposes a new brasserie style in a restaurant spanning 140 tsubo (460 m²). Both domestic and international visitors are sure to enjoy this.

11F

On this top floor of the facility, TRANSIT GENERAL OFFICE, which is responsible for many restaurants in the spotlight, will bring the modern Greek restaurant “THE APOLLO” from Sydney to Japan for the first time. “Ozakigyū Yakiniku Ginza HIMUKA” is a new Japanese BBQ restaurant that will serve Ozaki beef, a high-profile personal-brand beef. The venerable Kyoto restaurant Shimogamasaryo operated by broadcast writer Kundo Koyama will open its new restaurant “Shimogamosaryo Higashinohanare / Nomae” for the first time in Ginza.

We will spread Japan's wonderfully diverse food culture and true hospitality to the world from Ginza.

Public Space

Public spaces will be available on the 6th floor and rooftop for visitors to relax while enjoying views of Ginza through the Edo Kiriko motif glass. These spaces are meant to serve as urban PLAZAs to provide a new place in Ginza to unwind and make new discoveries.

[6F KIRIKO LOUNGE]

The lounge café “Sukiyabashi Sabo” will be open all-day in the space with an elevated ceiling about 27 meters high. Cultural/information events will also be held regularly.

◆Collaboration with Bunkamura

Kiriko Lounge will regularly host events in collaboration with Bunkamura, a cultural complex in Shibuya. Themes for a year-round series are “the four seasons” and “spring/summer/fall/winter.” The beauty of the seasons will be expressed through various cultural art genres, including music, traditional performance art, and traditional art.

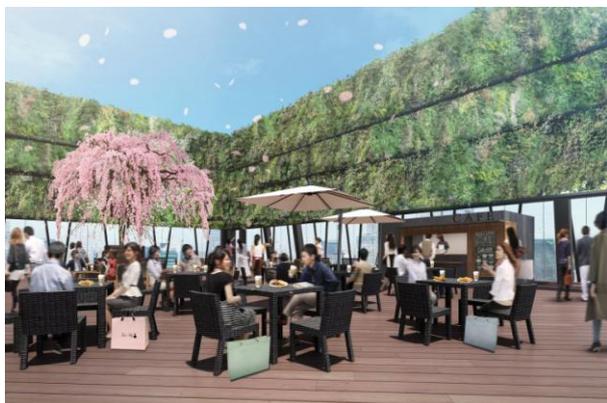

TOKYU PLAZA GINZA aims to disseminate culture uniquely by introducing artists and new talent who embody “Creative Japan,” offering diverse cultural art to match the tastes of discerning adults in Ginza, and planning collaborations that cross category borders.

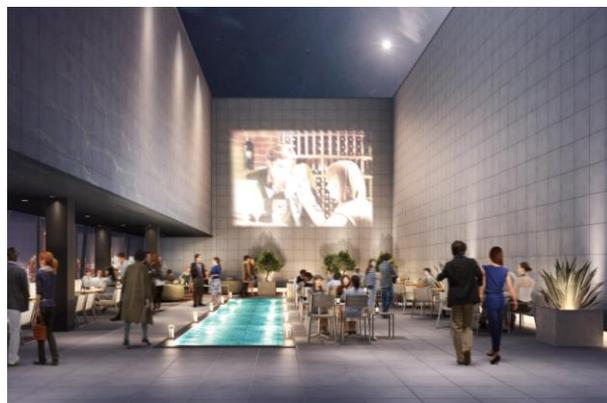

<Kiriko Lounge Image>

[Rooftop KIRIKO TERRACE]

The rooftop open-air KIROKO TERRACE will comprise two zones, the Green Side with lush greenery and the Water Side that features a wide basin. A weeping cherry tree has been planted as a symbol tree on the Green Side to express the four Japanese seasons. “The Sakura no Chaya” café will be opened here also, offering light drinks and food.

<Kiriko Terrace Green Side Image>

<Kiriko Terrace Water Side Image >

Nearby Environmental Upgrades

In preparation for facility opening, we also worked to upgrade the environment in the surroundings, such as enhancing the neighboring Sukiwabashi Park and improving the underground walkway. These measures will improve convenience and the traffic flow for those who visit Ginza.

<Sukiwabashi Park Image>

TOKYU PLAZA GINZA is an urban commercial facility that offers global brand flagship stores, an in-city airport-style duty-free shop, and public spaces.

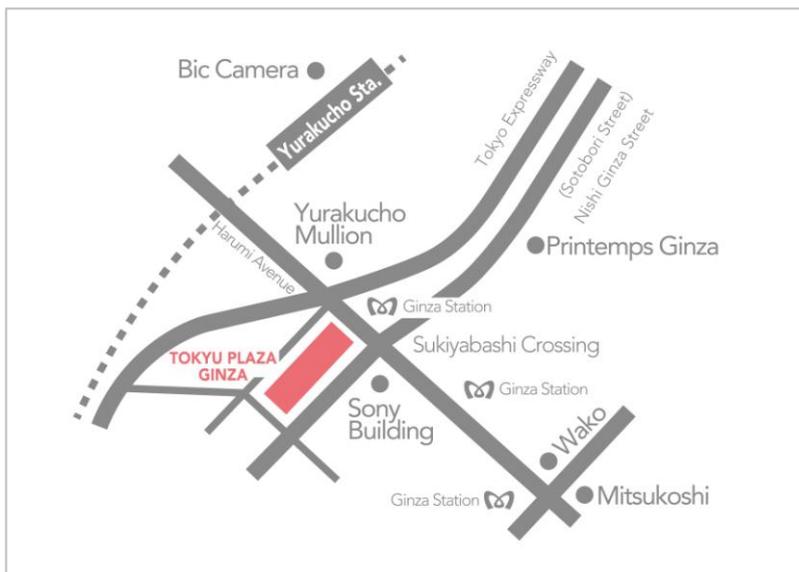

Tokyu Land Corporation positions TOKYU PLAZA GINZA as a flagship to be the most innovative and influential Tokyu Plaza facility and will propose new lifestyles to customers through this flagship.

TOKYU PLAZA GINZA shall serve as a new landmark of Ginza, Tokyo, and aim to serve as a gateway between Ginza and Japan, and between Japan and the world.
